

Your Party's Over...
**But Are You Now Stuck
With Any Of THESE Spots That
Won't Leave On Their Own?**

***Fruit Juice *Red Wine *Beer *Punch *Coffee *Cake
*Fizzy Drinks *100's of Other Things Left Over From Your
Celebrations What Do All The Above Have In Common?**

Three things: 1. They all have sugar, which attracts dirt, slowly forming black spots on your carpet
2. They all contain dyes, which permanently stain your carpet
3. They are now in your carpet, slowly becoming irremovable!

Do you have UGLY-STAINS disguised as SPOTS?

Most people don't know the difference: SPOTS can be washed out, STAINS are spots with dyes in them and they are with you forever! Right now, many of the spots on your carpet can be cleaned out by my company easily, but eventually they will become permanent stains if you don't have me take care of them right away. Often we safely remove permanent stains with costly new specialised stain removers, but not always. So it is safer and less costly to ACT NOW!

Riddle: What is older than Father Time, older than dirt?

Answer: Stains. Stains stay in your carpet through many cleanings and become older than your carpet's dirt. Older than Father Time's one-year life cycle. Stains are forever. Stains will last longer than your carpet itself. That is why you must call me right now... The clock is ticking... pick up the phone...

**After the Party's
Carpet Cleanup Special**

4^{For} 3 Special

Expires 31st January 2012 Order any 3 rooms of carpet cleaning and get a fourth of equal or lesser value absolutely FREE!

Call Fibre-Clean on 0800 695 0217 or 0208 684 7741
